

12 Volt Jet Pump

PN Series Pumps are corrosion and abrasion resistant and are ideal for pumping lifts of 25' or less. Self priming after the pump housing is initially filled with water. Capacities to 13 GPM. 12 VOLT makes great for remote locations.

FEATURES

Quality Construction: Fiberglass reinforced thermoplastic polypropylene body provides total corrosion resistance and high resistance to abrasion.

Built in Jet: Shallow well jet has corrosion resistant noryl nozzle and venture.

Polycarbonate Impeller: Precision molded for perfect balance... ultra smooth for highest performance and efficiency.

Precision Molded Diffuser: Polypropylene diffuser allows pump to prime faster, handle more air.

Heavy Duty Motor: Stainless steel shaft and dual heavy duty ball bearings.

APPLICATIONS

Water Systems

Booster Pump

Marine Use

Mist Sprayers

Fountains
